

Restricted User Permissions

How to use with restricted user permissions:

- iCPlate II Target (for iCPlate II)
- PlateQuality (for iCPlate II)
- PlateQuality Flexo (for vipFLEX)

To use these applications on a computer with restricted user permissions, the user needs to get full permissions for the file "PDOXUSRS.NET".

For that purpose, please proceed as followed:

- Login as Administrator
- Select the file PDOXUSRS.NET in the root directory (C:\) with the right mouse button and then select properties
- Set the permissions for the particular user as followed:
